Hello! I'm Thai “0xReki” Chung, a jack of all trades from Germany. I live near Cologne and currently work at IT.NRW. My focus is in Linux, but that doesn't mean I dislike using other OSes. I'm a typical IT guy with interests in creative writing, vintage game consoles, vintage audio hardware, and Riichi Mahjong. I like playing JPRGs. While I do like action games, but I kinda suck at those.
